DETAILED ACTION

1. After a thorough search and examination of the present application and in light of the prior art made of record, Applicant's response of July 25, 2005, and Claims 4-9 and 11-19 are allowed.

Reason for Allowable

2. In the Examiner's Office Action for non-Final Rejection of May 18, 2005, 35 U.S.C. 35 U.S.C. § 102, rejections was based on primary reference, Amer et al. (Noah: LOW-COST FILE ACCESS PREDICTION THROUGH PAIRS, Amer et al., IEEE, 2001). In the response filed on July 25, 2005, the Applicant argued that the Noah reference does not teach the following elements of claim 6:

"generating by a content authorizing tool a plurality of files and hints that specify one or more of the files that are likely to be referenced within a temporal proximity of reference to a selected other one of the files;
receiving at a storage system the plurality of files and hints from the content authorizing tool;
and
using the received hints to allocate storage within the storage system fro the files."

After a further review of the above consideration and an update search conducted as described below, the claim 6, as lastly amended on July 25, 2005, is hereby considered allowable.

A search for the prior arts on EAST database has been recently conducted to further extend and update the scope the searches conducted during the past two years on domains (EAST,

NPL-ACM, Google, NPL-IEEE, Oracle, Sun Micro, etc.). The prior arts searched and investigated in domains (EAST, NPL-ACM, Google, NPL-IEEE, Oracle, Sun Micro, etc) do not fairly teach or suggest the teaching of the combined elements as claimed in the only independent claim 6.

The dependent claims 4-5, 7-9 and 11-19, depending claim 6, also distinct from the prior art for the same reason.

3. Any comments considered necessary by Applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
